Missouri Right To Life Federal PAC Issues Single Endorsement of Josh Hawley for U.S. Senate

(JEFFERSON CITY, MO) - It is an honor for Missouri Right to Life Federal Political Action Committee to give a single endorsement to Josh Hawley for the August primary election.

Josh Hawley is a proven pro-life candidate. His work to protect unborn babies and women, Josh's unwavering stand for life when it was not political but was a passion of his heart and values for innocent human beings, and his commitment to stand for the truth even when it's tough have merited this endorsement.

One of the dominant concerns of the 2018 U.S. Senate race is nominees to the U.S. Supreme Court and whether Missouri will elect a new senator who will support nominees who respect our country's founding documents. The makeup of the Court will determine whether conservative people and their values will be mocked and thrown out -- or whether we will be heard and respected for standing for the truth. Josh has tremendous respect in his stand for the truth.

Missouri Right to Life Federal PAC is one part of the Missouri Right to Life Organization. We are the Missouri State Affiliate of National Right to Life, the premier national organization of pro-life people working to save unborn babies and help women to know the truth about the abortion industry.
