Celebrates Victory in Nine of Nine Primary Races

Missouri Right to Life PAC played an active role in nine primary races yesterday through independent expenditures, and today we are pleased to announce that all nine targeted candidates have emerged victorious.

"In nine key races in which the pro-life candidates faced substantial opposition - including one in which the opposition was actively supported by Planned Parenthood and other anti-life organizations - Missouri Right to Life PAC got involved, producing mailings, radio ads, and online ads urging voters to make the pro-life choice. We are pleased to announce that they did. Pro-life voters came out in force yesterday, electing all nine pro-life candidates supported by Missouri Right to Life PAC," said Pam Fichter. "I want to thank every voter who helped make this victory for life possible. We have once again shown that Missouri is a pro-life state, and now we will turn our eyes to supporting the election of more pro-life voices in November."

Missouri Right to Life PAC is the oldest and largest pro-life political action committee in the state of Missouri.
