**Missouri Right to Life State Political Action Committee
Issues Single Endorsement of Jay Ashcroft for Missouri
Governor in the August 6, 2024 Republican Primary Election**

The following statement can be attributed to Dave Plemmons, MRL PAC Chairman:

The Missouri Right to Life State Political Action Committee (MRL State PAC) today issues our exclusive and single endorsement of Jay Ashcroft for Missouri Governor in the August 6, 2024 Republican Primary Election.

Our great state needs a chief executive that prioritizes the sanctity of life in policy, appointments, and leadership decisions. While Missouri has had many successes in saving the lives of the unborn, there is much left to do. We cannot wait on necessary policy and legislative initiatives when lives are at stake. We must advance the pro-life culture in Missouri, truly defund abortion promoters and providers, and protect our children from those pushing the "proudly pro-abortion" social narrative.

As Missouri Secretary of State, Jay Ashcroft has strongly defended the Right to Life when called to do so. His positions consistently align with Missouri's pro-life majority voters. Ashcroft has the executive skills as Missouri's top election officer, and most importantly, he has demonstrated his passion for saving the lives of innocent unborn children, vulnerable seniors and those with disabilities.

Jay Ashcroft is the candidate that we need to combat the abortion culture, save unborn babies and protect women. He deserves our unwavering support and enthusiasm in his run to be Missouri's next Governor.
