Missourians Turn Out to Elect MRL PAC-Endorsed Candidates

JEFFERSON CITY, Mo. (August 5, 2026) — The following statement is from Susan Klein, Executive Director:

Yesterday was a successful day for pro-life candidates, once again proving that Missourians are pro-life. We celebrate the success of 109 candidates endorsed by Missouri Right to Life Federal PAC and Missouri Right to Life State PAC in the primaries and look forward to seeing them elected in the general election.

Missouri Right to Life Federal PAC celebrates the victories of our endorsed candidates in all eight Republican congressional primaries, and we especially cheer the nomination of Rick Brattin for Missouri's new 5th Congressional District.

Missouri Right to Life State PAC congratulates our endorsed State House and State Senate candidates on their primary victories.

While encouraged by these election results, Missouri Right to Life State PAC is disappointed by the failure of Amendment 4, and we renew our call for the Missouri General Assembly to pass commonsense initiative petition reform in order to protect the Missouri Constitution from outside entities and nefarious special interests.
