MRL PACs RESPOND TO ELECTION RESULTS, REAFFIRM COMMITMENT TO PROTECTING LIFE

Missouri Right to Life State Political Action Committee is disappointed in the failure of Amendment 3. Women, children, and babies are still at grave risk in our state. We will continue to educate the public on the dangers of Article I, Section 36 of the Missouri Constitution. We will also continue working with the Legislature to protect the innocent preborn persons in our state.

We are also deeply concerned by the passage of Amendment 6. We urge the courts to carefully examine its constitutionality under the Missouri and United States Constitutions.

Missouri Right to Life State Political Action Committee celebrates the victories of 84 of our endorsed candidates for the Missouri House of Representatives and 12 of our endorsed candidates for the Missouri Senate. We also congratulate State Auditor Scott Fitzpatrick on his reelection.

Missouri Right to Life Federal Political Action Committee congratulates the five endorsed pro-life congressional candidates who won their elections. We are grateful to these candidates for their commitment to protecting innocent human life and look forward to working with them.

This was a consequential election night, marked by setbacks, but also by many candidate victories of which to be proud. Regardless of the outcome, we will never regret fighting the good fight and continuing to advocate for the right to life in Missouri and across our nation.
